MANIFESTO:

The SRC, as an institution of
student government has a dual
role: to represent student inter-
ests effectively but also to pro-
vide positive leadership. In
carrying out these functions I
believe the SRC has an obligation
to:

- utilise the means that exist
for bringing student problems
or suggestions to the attention
of the relevant administrative
authorities.

- provide effective channels of
communication for student rec-
ommendations and grievances on
academic matters by extending
Faculty Councils to cover the
campus. These institutions
have proved their worth in pro-
moting constructive challenge
and greater staff/student
contact on matters of mutual
concern.
- promote contact with other
universities at all levels (eg
sports and societies) in par-
ticular by encouraging disc-
ussion of matters affecting
all students both on and off
the campus
- provide greater funds to enable
leading speakers in all fields
and of all persuasions to gen-
erate greater student aware-
ness of the problems that con-
front our country today
- encourage greater student part-
icipation in all campus
activities.

Pensketch

Matriculated at Collegiate High
School for girls in 1978.
Managing Director of I.C.L.
Business Game team.
1st year B.A. LLB.

MANIFESTO:

As the SRC is essentially repre-
sentative of student interest
and opinion, my main concern on
this body will be with carrying
out the wishes of my constituents.
As a representative of a women's
hall, one of my main interests
will be in Res Reform and as
Oriel Hall may be experimenting
with a form of intervisiting
next year, I shall take an active
role in this sphere. I am also
interested in the Faculty Council
scheme, which, although not gen-
erally considered effective at
present has, I feel, a lot of
potential which I hope will be
realised. I would also support
all forms of inter-university
contact. Due to its secluded
position, Rhodes tends to become
isolated and this must be avoid-
ed at all costs.

At present I am completing my B.A. History, Philosophy and Politics and intend to do History Honours in 1980.

MANIFESTO:

Principles

1. Hall autonomy in rules, discipline, organisation and finance.
2. Academic freedom- the university should not be an

instrument of government policy nor of any other imposed ideology. It should be autonomous in who it admits, how it organises itself and what it teaches.

3. Contact with other universities, exchanges of perspective are essential to better understanding. I shall work e.g. on cultural exchange programmes, especially with 'Black' and Afrikaans medium universities. I am not very happy with NUSAS as it stands at present but am prepared to use any means available to promote student dialogue.

I pledge myself to:

1. Represent fairly the views of all the members of Jan Smuts Hall.
2. Serve as SRC member to the best of my ability. I should choose the Cultural Affairs portfolio.

1978 - B.A.11, represented Rhodes - golf. Elected to Botha House Committee and Rhodes Golf Committee.
1979 - B.A.111, elected to Botha House Committee and Botha House 'Rag Rep' Committee 3rd year in Founders Hall.

MANIFESTO:

I will remain in Founders Hall for 1980. If elected, I shall attempt at all times to liaise closely with those in Founders many whom I have known for a number of years. The impression one gets is that the SRC is plagued by tedious and often aimless discussion.

I feel an attempt must be made to cut-down on irrelevant political and ideological verbiage! The body should be a more informal and cordial one, with an emphasis on getting the job done quickly and effectively. The portfolios that interest me are the PROJECTS and COMMUNICATIONS portfolios, but irrespective of the nature of the portfolio that is assigned to me, I shall attempt an efficient and thorough management of those duties.

1977 Teller at Barclays Bank, Blackheath.
1978 1st year Rhodes University
1979 Cory Senior Student, Founders Hall Committee.

MANIFESTO:

I support the line of an active SRC that will lead the campus whilst not being dictatorial and put Rhodes back on the map as one of the top varsities in the country. For too long now the

SRC's of previous years have not taken a positive active interest in Rhodes the University and its campus. I feel that motivation of the student body through an effective SRC is the keyword. I am in a position to lend positive drive to the 1980 SRC due to my commitment to attempt motivation of the student body. Another of my aims is to try to de-emphasise the over-emphasis which the students of Rhodes tend to place on the so-called left-right clash which has dominated student affairs for countless years now. It is high time the two groups shelved this destructive infighting in a common drive for an effective, efficient SRC and student body.

Mike Davies's manifesto continued.

Pensketch

I am a second year B Comm student majoring in Economics and Business Admin. I matriculated in 1977 from Kingswood College, Grahams-town. During my final year I was Head Prefect of the school. At school I played 1st XV Rugby and enjoyed success in the swimming pool. At present I am secretary of the Rhodes Rugby Club.

MANIFESTO:

I am aware of a large complacent body of students at this university, the need to create more awareness of current university

affairs and policies and to encourage active participation therein.

I feel that in the past the SRC has concerned itself in matters not to the interest of the student body as a whole, but predominantly about matters concerning their own administration. I would like to see the

move as a lobby of general opinion discussing matters relevant to all members of the university.

To this end I would like to stage more open debates on topics of interest and conflict within the university

MANIFESTO:

I stand to represent students and their interests to the best of my ability - I am essentially interested in the treasury portfolio and in that capacity would like to investigate:

- the spiralling university and residence cost structures.
- societies' budgets in order to encourage societies to become more active. In this respect Rag has provided me with considerable experience and contacts for better and more practical finance through sponsorships and fundraising.

The idea of a National Union of South African Students is exiting and positive but then that body must truly represent the aspirations of the students. I feel strongly in the potential of the SRC and its capacity to benefit you.

MANIFESTO:

My duty is to Us students. In this I believe that the SRC as a body has potential and can therefore benefit Us. For an SRC to be of benefit though, it must be backed by the Student Body. Therefore SRC members should act in the common student interest irrespective of the political convictions of individual members.

I will therefore Work at bridging the ever-mentioned gap between students and their elected representatives. A good and working relationship with Admin. should play a leading role in this respect. Negotiation and Discussion as a means rather than Confrontation is to be preferred.

Further I will always back:

- A FREE STUDENT PRESS
- THE ABOLITION OF DISCRIMINATION AGAINST WOMEN STUDENTS
- GREATER CONTACT BETWEEN UNIVERSITIES.

MANIFESTO:

External: I believe the English speaking student must play a great part in working for the kind of society that we would like to see in South Africa. In order to do this, we must understand the views of other groups, and make our views understood. Contact between universities is consequently essential. I therefore firmly believe in the politics of negotiation, and pledge myself to keeping an open mind, but nevertheless working uncompromisingly for a more just society. I see the rights of the individual as all-important.

Internal: After weekly meetings with the Vice-Chancellor and Vice-principal, and after sitting in on Senate, I have built up an understanding of how the university works (or does not work), and what we have to do to get things changed. Here I will continue to work for the principle of intervisiting. I will support and further any project I see benefiting the student, and his/her interests.

General: I will represent you and your interests to the very best of my ability.

MANIFESTO:

In past years much of what respective SRC's have done has been lost to the greater number of students. A great deal of time seems to have been wasted as a result of political infighting and squabbles. It is high time that the SRC should look to projects which will directly affect and be of benefit to the students of the varsity.

Instead of being politicians, SRC members should see themselves essentially as intermediaries between the council as a whole and their constituencies. The SRC should be a place where ideas are disseminated and decisions taken on the suggestions of students through their reps.

Kimberley Hall is in some respects isolated from the main campus. As such, we form a separable community. There is no reason why Kimberley residents should not voice their opinions on matters concerning not only themselves (for eg. high fees, vac accomodation) and the varsity as a whole (eg. quad squats). If elected as the Hall rep I will ensure that the necessary liason between SRC and Hall is attained. Furthermore, knowing full well the attitude of Hall residents to political meanderings of previous councils, I will consider it my duty to remind fellow members that the SRC is a Rhodes students council above all else.

I have now been on the SRC for three months as Projects Councilor. I have experienced more difficulty than I expected with regard to getting projects underway. Have had one very successful project, i.e. clothing drive. I would like to be re-elected because I have a number of other

projects in mind. These include lecture and lecturer evaluations; specific Arts course evaluation; getting a Leopard Express to be run from PE for students (especially Rhodesian students) at the end of vacs; getting the road to Cullen Bowles tarred,

and inviting visiting speakers to the Rhodes campus. I have attended all SRC meetings and two Hall Comm. meetings in my term of office. The latter were especially interesting and beneficial in connection with my fellow Projects Councilors' Res Reform project, with which I am helping. I shall promise to raise any grievances or opinions of my constituents on SRC if I am re-elected. A vote for me is still a vote for you.
