- 1981 - Member of the Scuba Club.
- 1982 - Member of Windsurfing Club.
- 1983 - Chairman of USFEW.

MANIFESTO:

I see the SRC as a body through which student dissatisfaction within the University structure can be channelled. Students should be able to contact their respective representatives and feel assured that their problems will be acted upon and not shelved away. Although political issues are not the prime task of the SRC, these should be focused on in such a way as to let the student decide for himself where his support lies. In order to implement this idea of the SRC I intend to promote the following areas: (1) continued good relations with the administration; (2) better student representation on various committees; (3) supporting work done in the field of student benefits; (4) focusing on issues of national interest; (5) making sure that students are not alienated from the decision making process; (6) to discourage factionalism on the SRC as much as possible.

MANIFESTO:

As a fourth year student who has been involved in a wide spectrum of extra-mural activities, I have had both direct and indirect contact with the respective SRC's over the years. My experience with, and observations of, the SRC's has been a strong motivation for my candidacy in the 1983/84 election. I believe past SRC's have fallen short of their most important function, that of representing students in terms of grassroots communication and activities. Many SRC members have not honoured election promises and their accountability to their electorate has been minimal. If elected I will ensure that my services as representative are placed where they belong, in the hands of students. They include: Assessing SRC credibility and future direction by way of an extensive questionnaire; Establishing liaison between the SRC and each Hall on a monthly basis (or when issues require it) to facilitate report-backs on previous activities and to receive direction for future campaigns and services. These meeting will allow students to make suggestions or alternatively censure the SRC for past decisions. To emphasise the educational (the importance of faculty councils) and direct student benefits role of the SRC.

## MANIFESTO:

The SRC should provide effective student representation, positive leadership and efficient administration. There is also the need to play a positive role in directing student attention to issues which affect us all. Finally, as the SRC is responsible for the allocation of the budget, and organisation of events such as Orientation Week and the Arts and Science Festival, there is the definite need for efficient administration. Having been fully involved in all aspects of campus life, I feel I can utilise my experience and proven efficiency to ensure that the SRC is Representative, offers positive leadership and is efficient in its Administration.

## MANIFESTO:

For too long SRC have been out of touch with the people they represent. I am re-standing this year because I believe that improving this situation should be the primary task of the 1984 SRC. The SRC have had a particularly disrupted year with height by-elections and the referendum severely hampering effective and credible student representation. It is vitally important that our new SRC both learn from past mistakes and build on the positive work of previous SRC's. Having been on the 1982 and 1983 SRC I am in a position to contribute from first-hand experience. I remain committed to the concept of a national union, but now that we have disaffiliated from NUSAS, I feel that our major task is to build effective student government through an SRC that is truly representative of what students want. The SRC members must concentrate on establishing regular contact with the students who elect them. If student representation is going to be meaningful to students at Rhodes, strong SRC/student relations must be built. I would like to see the SRC holding termly report-back talks in every Hall and taking up suggestions that students put forward.

Intending to qualify as an attorney

#### MANIFESTO:

When elected to the Rhodes University SRC, I intend looking into the following:

1. Res reform: This is an issue which affects all students at Rhodes, directly and indirectly. This will include extended visiting hours and the abolition of duties. The latter is a crude form of "fagging".
2. Discipline: Better representation for students appearing before disciplinary bodies. Also the use of precedents will ensure greater uniformity in sentencing.
3. Exams: The all-important question of student members instead of names on scripts. Also, extending reading time to ten minutes.

Faculty Councils: The establishment of a Science Faculty Council.

Should I be elected, I will do my utmost to strive to meet the above expectations.

## MANIFESTO:

I believe that the great majority of students on this campus identify themselves with the aims that Nusas has, i.e. against apartheid etc. The only difference of opinion is on the principle of centre affiliation to the National Union. As Referendum Officer in the past referendum on this issue, I have worked hard and acted impartially. I will do the same on the SRC should I be elected. My aim is a closer link between the SRC and student body. One of the ways to accomplish this is to publish SRC minutes and to have meetings with students in residences in conjunction with the Hall SRC rep. or Senior Res. Student to inform students on a regular basis what the issues before the SRC are and to get the necessary feedback from students so that the SRC knows what people want to have done.

MANIFESTO:

I have served on the SRC and the SRC Executive this year and thus have gained a working knowledge of both SRC affairs and the Admin's attitude toward student requests. I feel it is very important to have some continuation from one SRC to the next, especially at Executive level for this reason. Having been at Rhodes for 3 years, I am sick of seeing SRC's dominated by people whose prime concern is politics. This year, lets have an SRC that works for students.

MANIFESTO:

I stand on a platform of hardwork and proven reliability. Having served as Honorary Secretary as well as on the SRC Executive, I have had an insight into the administration and overall running of the SRC. The SRC is responsible for insuring effective administration of the numerous bodies which fall under its control and which affect the daily lives of all of us at Rhodes. It is therefore essential that students elect capable and experienced people to safeguard their interests. In this view I would like to utilise and build upon my experience as Honorary Secretary and "Arts and Sciences" treasurer in order to ensure effective control and thereby an effective SRC

## MANIFESTO:

The chief function of any SRC is to benefit students through effective representation. Rhodes' SRC has traditionally been a relatively ineffective one. Vital areas of student representation to which I will, if elected, devote myself are:- (1) Direct student benefits. The neglect of SRC entertainments is particularly alarming. If elected, I hope to take the SRC Rag and Entertainments portfolio. (2) The ombudsman function of representative, effective SRC. (3) Building efficient student representation in the Academic and Administrative spheres through constructive engagement and existing SRC structures.

The question of Nusas central affiliation is decided by the student body. I support Nusas and central affiliation. However, I hope that students will not decide their choice of SRC candidates along these lines. If elected I will work to make the SRC more efficient and more answerable to students.

MANIFESTO:

I have now been at Rhodes for two years and I feel that representation on the SRC is not what it should be. I would like to attempt to improve this. I believe there is far more to SRC work than the taking of political stands and whilst I accept the need for political awareness I feel that this role should not be overplayed on the SRC to the detriment of matters more directly related to student affairs. If I were elected I would like to stand for Cultural Councillor. This is an area that interests me and is a role I feel I could fulfil adequately whilst at the same time representing the students.

MANIFESTO:

Politically, I regard myself as moderate. I support NUSAS' policy opposing apartheid, although their structure is beyond my control. My primary concern, however, is with the students of Rhodes. If elected, my objectives are:- (1) To increase Society grants; (2) To generate more student participation in the Arts and Sciences week; (3) To enquire into student consumer worries such as lauderette, books and photo booths. New faces are needed in the SRC and I feel that I can assist the students in making the SRC more concerned with student problems.

Rotary Exchange Student to New Zealand in 1981. Elected to School Council in New Zealand. Involved for short period with Projects Comm. 1982. 1983 House Committee - Canterbury. Actively involved in Nusas referendum.

## MANIFESTO:

I believe that the SRC needs to get more in touch with the needs and demands of students. Rhodes students sometimes appear to be apathetic about student affairs, and I believe that this may be through lack of constant interaction with their SRC reps.

I'd like to look into the question of separate representation for Allan Webb and Drosty Halls on the SRC. I believe that these halls may not at present be served or represented as effectively as they might be under individual representation.

I think that the SRC has an important role to play in connection with Nusas. The recent referendum showed that the SRC needs to take over many of the roles which Nusas previously played. Nusas should be given support in their new role so that they can fulfil their potential as a society.

#### MANIFESTO:

If I am re-elected to the SRC to Hobson Hall, I would continue to have the interests of the Hall as my prime objective, this would mean carrying on in my endeavour to inform the members of the Hall of current events on the SRC, as well as of projects that are aimed at benefitting the student body. I would do this through report backs as I have already done.

Although res reform has not been one of the issues that has concerned the 1982/1983 SRC I envisage that next year, it will again come to the fore and I hope to be able to do my best for the Hall in this respect. Another issue that is of extreme importance to Hobson is Hall Unity. I would like to see Hall unity promoted, not only regarding Livingstone, but also Milner Dingemans and Hobson.

The most important reason for my standing for the SRC is what I can achieve for the members of the Hall through the SRC.

MANIFESTO:

I see the task of an SRC representative as being involved in the fair representation of all the students in Hobson Hall. I would aim at being as objective as possible in my representation, of the students in Hobson Hall.

One of my chief objectives would be to investigate the possibility of greater co-operation and unity between the three female residences and Livingstone House should be incorporated in the activities of Hobson Hall.

Not only would I work for improved communication between the four residences in Hobson Hall, but I also would like to encourage greater rapport between the SRC and the Hall. It is important that the students are kept informed of SRC decisions pertaining to the Hall. Through regular report backs students would be informed of such decisions.

As a representative I would do my best at representing and promoting the interests of Hobson Hall.

## MANIFESTO:

As SRC rep for Kimberley Hall, I would do my best to further the interests of the students of Kimberley Hall. The food at Kimberley Hall has always had its ups and downs. If students feel we are not getting our money's worth or that what we get is not up to standard. I would work with the food reps and take specific complaints to the kitchen in a reasonable manner to look into acceptable alternatives.

Being involved in sports on the Hall myself I will be in a good position to see that it is organised the way we want it.

In representing the interests of our Hall, I would present any reasonable complaints, and equally important, I would do what I would to further suggestions for improvement.

Beyond this, as a member of the SRC, I would become as involved as possible, would contribute what I could, and would do my best to manage an efficient and beneficial portfolio.

MANIFESTO:

In the event of my being chosen as SRC Rep for Kimberley Hall I see my function as follows:

Firstly to represent, to the best of my ability, the students of Kimberley Hall, their problems and opinions, at the SRC level.

Points which I wish to give effect to are:

1. Better security on the Hill. With the recent spate of burglaries on the Hill both in Res and from Common rooms, I feel that not enough is being done to ensure the safety of our property. Improvements must be looked into.
2. Food, a problem we face 3 times a day, must be improved upon. It is about time we did something to improve the quality and quantity of the food we pay for. I would also like to investigate the possibility of people who have 2.15 p.m. lectures on campus, eating at a campus dining hall.
3. If I see the construction of the Goldfields Residence as posing a noise problem, to help members especially Cullen Bowles residents, in the months to come. Negotiations with the builders and admin must start immediately to avoid noise over the exams.

Having held the portfolio of Residence Liaison Councillor in 1983 I intend to stand for this position again as it culminates my main reasons for standing for the SRC. I have worked within the limits of my portfolio solely for the benefit of students at Rhodes and intend to continue doing so as I firmly believe that this should be the main function of a STUDENTS' REPRESENTATIVE COUNCIL. If elected I will continue my efforts to improve student/SRC relations and will endeavour to promote the corporate collegiate life of students as far as possible. In my past term of office I did not take any firm political stand but due to the fact that I believe that the SRC cannot function to its full potential whilst divided on any issue I firmly support Central Disaffiliation from Nusas. I believe and have been made aware that the entire functioning of the SRC is continually hampered by contentious political issues and therefore stand to take every opportunity to cause the SRC functioning to put all its efforts into working for the student body it represents.

## MANIFESTO:

If elected as SRC representative of Oriel Hall my prime objective would be to try and bridge the communication gap between students and those who represent them. I feel that an efficient SRC should have their finger on the pulse of general campus feeling. I would try to do this by:

1. co-ordinating meetings at each of the halls where members of the SRC would be present to answer students questions and to allow students to propose areas they want the SRC to deal with. The SRC members will present reports on their activities so that they will be directly answerable to campus.
2. To place suggestion boxes in the halls.
3. To organise informal meetings between senior students where they could discuss problem and exchange ideas. I would like to take up the Res Liaison officer portfolio which will enable me to organise the above and to negotiate student requests with Admin.

## MANIFESTO:

There are three important issues involved in the function of a Smuts Hall rep on the SRC. These are:

1. Representation : I must know the feelings of the people in the Hall in order to represent them on the SRC (this means questionnaires)
  2. Communication : This is vital because the SRC rep. is the link between the Hall and the SRC and at times the Hall Committee. (This means Hall talks and newsletters)
  3. Responsibility : The Hall rep must be responsible to his constituency and should work for the Hall not himself. (This means you the Hall)
- I must challenge my reasons behind the way I vote and what I am working for. Help me represent you.

## MANIFESTO:

The reason I'm standing for St Mary's Hall is because I believe that major issues have been neglected for too long. Our reses are old, but there's no excuse for brak water because of rust old pipes (for nearly a month). The bathroom facilities in Phelps and John Kotze have been declared a health hazard, is it fair that we put up with these conditions? Secondly, we need to review broader issues: Are our House Comm's running as effectively as they could? Thirdly, the issue of keys and duty systems: Are we, as students, having a fair say in the running of our own reses? I don't intend to bring up the issue of the inequality of female res systems again, but I do believe that grievances should be taken up from within the reses themselves. I stand for a fair and democratic representation of every person in St. Mary's Hall.

## MANIFESTO:

After one year on the SRC I have learnt an enormous amount and gained invaluable experience. I feel that with this behind me I am better equipped to represent students. It is essential with a body like an Src that changes every September that some continuity is maintained in the quality of student representation is to improve. This means the new SRC can avoid mistakes made and build on gains achieved in the past year.

Oppidan students are often isolated from campus activity and happenings. I think it should be the responsibility of Oppidan reps in the future to devise a regular and systematic way of informing oppies of forth coming events and report back on activities. This is something I would undertake to institute if elected

Through the Oppidan Board we have worked consistently at extending Oppie benefits and defending their rights against Administration. This is something I would like to continue next year in my capacity as an oppie rep.

Finally, I think that the SRC should devote more time to raising issues that affect our Academic life and to gaining more say for students over how their lives at university are run.

## MANIFESTO:

Given the fact that many Oppie students are not in close contact with campus happenings, I feel that this is important to strengthen representation in this area. The SRC has both an informative and educative role to play on campus, and it is with this that I would be concerned. The referendum has shown that the SRC needs greater communication with students it represents and I feel that the experience gained on the SRC this year will facilitate this.

## MANIFESTO:

Three years experience on Rhoeo have equipped me with media skills which would be useful for the SRC in a number of ways. Firstly the S R Scene is the SRC's main report-back channel to campus. I will ensure that this comes out regularly so that students are kept informed of SRC activities. Secondly, societies need to have the benefit of media resources from the SRC. I will undertake to hold media skills workshops for anyone interested as well as help societies produce their own newsletters etc. throughout the year. As an Oppie Rep. I would also aim to provide feedback for oppies, in the form of a regular newsletter as well as take oppie grievances to the SRC.
