

1984

VICE-CHANCELLOR'S MESSAGE

UNIVERSITY · GRAHAMSTOWN
Grahamstown, 6140 South Africa

When I first encountered the works of George Orwell the year 1984 seemed mercifully far into the future. Now that it indeed is upon us the worst of Orwell's prognostications have not come about. This, however, is no excuse for shutting our eyes to the misfortunes we encounter all about us : poverty, unemployment, malnutrition and the dissolution of family life.

Rhodes Rag's main endeavour is to raise funds to alleviate such distress. We are proud of the dedication, imagination and hard work which our students devote to Rag activities. Be generous when they approach you, and assist a good cause.
