'KING KONG' FOR U.K.

Own Correspondent

CAPE TOWN, Tuesday. — Jack Hilton, the London impresario, has taken up his option on the African jazz opera, "King Kong," and will produce it in London and, possibly, in New York.

Mr. Harry Bloom, the Cape Town author of the play, said to-day that he had just received a cable from the Hilton organisation.

Negotiations were going ahead about the inclusion in overseas productions of members of the original cast and the orchestra.

"King Kong" is expected to open in London about September.
