

To see you in Grahamstown ★ Towards the end of FEB 95
We both send our love to you all.

8 October 1994

Dear Sheila

I have been intending to write
to you since hearing at the end of August
of + Bill's death - news which came as a
great surprise & shock. I have delayed writing
till I could spend a while in the library trying
to find a newspaper article which might give some
detail - but I have only found an article
in The Times written by someone ~~for~~ ^{from} the media
who lacked any understanding of what motivated
Bill, who judged his years as Bishop's work
entirely by one criterion. It gave ~~no~~ ^{very little}
other details of what had happened. He also
waited for recent visits from S.A. friends,
but they also knew nothing ^{of the "cause of death"} ~~except~~ that it
happened suddenly.

Anyway - we both want to send our love
+ deep sympathy ^{to you} to you & the family & assure you of
our regular prayers. It seems as though it
must have come as an ^{unexpected} shock - in any case
we can guess what a tremendous wrench it is
what a gap he leaves in for our lives, & not
from the life of the world-wide church - & South Africa.
He has meant a very great deal to me
over the years - since I first visited you in Grahamstown
