

Ans 9. 1. 95.

Dear Mrs. Burnett, (Sheila)

Just to say how
you have been in my thoughts
since I received the news of your
previous one 'graduating' at last
after such a valuable pilgrimage
here with so many of God's family. I would
like to express my personal gratitude for the
kindness Bell showed me in encouraging me
to come for counselling during times of distress
and for coming to visit me to pray for me
with regard to a chest illness which was
rather obstinate. I started to recover almost
immediately after our time of prayer. God is
always good. I know that I am only one of
many folk who respected Bell's integrity, his
God given wisdom, humility, graciousness
and godliness; and I regard it as a great
privilege that I was able to have a little of
his time and his precious person while he
was here with us. Many of us recognised
him as a unique man of God, and
others well, undoubtedly, discern this on the
other side of the veil!

Of course you will miss him and I
do extend my love to you and wish that I
had the privilege of knowing you better.

what I did want to share with you was what came to my mind and heart when I was praying to the Lord, giving thanks for Bill on the morning of his funeral. It was early morning and as I prayed I saw a picture of Bill being welcomed so joyfully by the saints in Heaven and of course the Lord Himself and Bill was responding in his customary humble fashion with a dear smile so characteristic of him, that sort of unassuming and yet GLAD smile! The picture was absolutely teeming with life and there was no hint of death whatsoever. I just had such an assurance of Bill being very much alive in Heaven. It was almost a noisy picture with lots of chatter and happy laughter.

I would like to send love to you at this time while you are still ^{away} with the Lords work here on earth. God has you also inscribed on the palm of His Hand and He will surely supply all your need in the days which lie ahead. I have just returned from St. George's Hospital having had a cluster of lymph nodes removed from my groin and am praising the Lord that they are not malignant. God is SO GOOD! If there is ever a need that you have which I could help with, please don't hesitate to ask!

With love,

anamarie Bringle.
