Elected onto SRC; Vice-President, Education Councillor, SRC Executive Member, member of Academic Freedom Comm. Orientation Chair, SRC Rep. on Senate. Graduated B.A. (Hons) Academic Colours, Oppidan Board.
1984 Registered for M.A. Oppidan Secretary. Tutor with Academic Support Programme. Worked on Social Science and Arts Faculty Council Publication DP. Guest Speaker at SRC Leadership weekend.

MANIFESTO:

A dynamic Representative Body needs to be effective in several important areas:

- 1) Administration, Finance and Organisation.
- 2) Negotiations with Admin and Departments.
- 3) Student Services.
- 4) Stimulating awareness of broader social issues.

Representatives need to work together and to engender the support and confidence of diverse campus groupings.

SRC's should not emphasise one of these areas at the expense of the others. If elected I would like to use the skills that I have to try to ensure a credible SRC that offers effective student government in all spheres.

SRC's can be rendered ineffective due to lack of experience of channels of communication within Administration. As SRC Education Councillor, Exec. member Senate Rep, Orientation Chair, Oppidan Board member and ASP Tutor, I have had first hand experience of many University Committees and Departments. I believe that I could provide valuable expertise to the SRC in articulating student interests within the university.

If the 1984/85 SRC is to consolidate and take forward the work of the present SRC it will be necessary for reps to make a considerable time commitment. As a Masters student I am not bound by a lecture time-table and am in a position to make SRC work a serious commitment.

MANIFESTO:

A general constituency representative must do for the general campus what a Hall Rep does for their Hall. I advocate closer correlation between res and /or hall schemes and campus schemes.

I would like to see an increase in the number of staff and student social functions, on faculty, year and general levels.

I believe that the accurate and representative application of the Src is the most important issue that a rep must stand for. I am interested only in positive, and again I stress the word, representative, action.

MANIFESTO:

This year has seen important moves in the SRC Education portfolio. The establishment of faculty councils under the general auspices of the SRC is in line with a move to provide students with a greater say in course structure and content, as well as problems related to lecturing standards. Clearly the potential of faculty councils and their co-ordinator, the SRC Education committee, is vast and has not yet been fully realised. If elected, as Education Councillor, my aim would be to build on those foundations already laid. Areas include:

- 1) Familiarising students with the faculty council structure.
- 2) Improving communications between faculty councils on campus and with faculty councils elsewhere.
- 3) Improving continuity from year to year of the faculty council structure.
- 4) Increasing the Education Committee grant.
- 5) Co-ordinating efforts in specific areas of importance to students e.g. the exam number system.
- 6) Co-ordinating educative projects on more general issues which concern students: Admissions and Subsidies, Education in South Africa, etc.

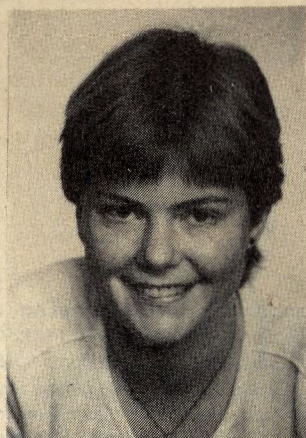

The SRC clearly has an important role to play in this area, particularly as it has access to crucial decision-making bodies in the University. If elected I will ensure that the SRC's resources are fully at the disposal of student interests in education.

Member of Board of Wardens. Oriel Hall Committee member.

MANIFESTO:

In the past year my experience as Res-Liaison Councillor and particularly as co-ordinator of the Food Campaign has made it clear to me that without co-operative student effort, few SRC initiatives can be realised. The SRC cannot be an institution divorced from its electorate. One area in which this co-operation has been achieved is the Inter-Hall co-ordination in the revision of the Food Rep. system. I feel strongly that this should be extended to other spheres of SRC activity such as society co-ordination, contact between Senior Students and General Communication between the SRC and students as a whole. Besides the obvious benefits a pooling of skills will provide. I feel that open discussion will encourage better relations as a whole. Thus the priority of the 1984/85 SRC should be to work towards creating the structures through which this can be achieved.

MANIFESTO:

A lack of contact and understanding often exists between different campus groups. The recent SRC Leadership Weekend pointed to many ways in which communication between the SRC, Societies and residences can be improved. With experience in many different facets of the media, I would like to put my skills to use in re-vitalising the media portfolio. The SRC newsletter, SR Scene, needs to come out far more regularly to publicise SRC activity, and the possibility of a societies newsletter needs to be investigated. I would be prepared to give media skills workshops at societies' requests to help improve society publicity. All societies and the SRC experience problems with the University Print Unit being overloaded. I would like to further investigations already underway concerning the purchase of an SRC printing press which would be used exclusively for society and SRC media. This year has seen the SRC playing a particularly active role on campus, and making a concerted effort to reestablish effective communication between students and the SRC. It is crucial that the good work begun is carried through in 1985.

MANIFESTO:

If elected, I commit myself to combatting the growing radicalism on campus. I intend to do this by: 1. Establishing a Student Control Board to prevent the radicals continuing to use Rhodoe as a weapon. Rhodoe continues to defame its opponents, and if court action follows, students money is wasted. All students financially support Rhodoe, we have the right to prevent the abuse of press freedom. 2. Changing the name of the Guy Berger Room in the Students Union. Guy Berger was charged, found guilty and imprisoned under Security legislation. In the light of the Pretoria and subsequent bomb blasts, how can we honour a terrorist? The room perhaps should be renamed after one of our most distinguished Rhodians, the Hon. Ian Smith, former Rhodesian Prime Minister. 3. Ending mass meetings in the Quad during lectures since they violate student rights. In the interests of racial harmony the increasingly militant Black Students Movement should be restrained. If whites are to be continually subject to racist insults, threats and abuse, there will be a reaction. We are here to gain an education, not to foment a revolution.

MANIFESTO:

Having served on the past two SRC's, I can offer continuity and experience to the 1985 SRC. This past SRC has laid important groundwork in trying to forge greater links between the SRC and students. I was involved in the SRC Res Reportback tours, the production of SR Scenes and Oppie Letters as well as the recent SRC leadership weekend which were part of this effort. Although the positive effects are beginning to show themselves, this is a long process. SRC's previous to this one have been viewed with suspicion and even antagonism by students. I believe this year we have gone a long way towards building better student government and campus relations, but it is crucial that this is strengthened and continued. I feel I have both the experience and the enthusiasm to help with this task and I would really like to see the good work begun this year carried through.

MANIFESTO:

During the past year that I have served as the Smuts Hall SRC rep, I have gained a working knowledge of the SRC and its workings with the administration. Having had this experience I should be able to build on the gains achieved in the past year.

I stand on a platform of consistent hard work and dedication and will do my utmost to ensure that this continues if re-elected.

I feel that continuity is important so as to save the in-coming SRC from wasting valuable time when learning the ropes.

Throughout my term of office I have been directly accountable to the students of Smuts Hall through the medium of regular reportback letters. This I feel is an essential element of effective representation for Smuts Hall. All too often a SRC Rep is elected and never heard of again. I deplore this type of so-called representation and pledge to continue my day to day contact with students.

Smuts Hall students should be reassured that their problems will not be shelved but will be acted upon as requested.

This would involve an object look at possible changes in the rules which affect students in Residence. I hope to utilise my experience to the benefit of everyone.

MANIFESTO:

I am standing for SRC because I would like to see better communication between Allen Webb and the SRC. This is a newly-created seat so I would like to see this established as soon as possible. Also I would like to see the security improved as well as look into the question of res food, and more importantly, res fees.

I would like to make Allen Webb more of a known entity, as due to our location we are often excluded from the activities of main campus.

I also feel that the role of an SRC rep is to create an amicable atmosphere amongst the Res's within the Hall.

MANIFESTO:

I assure you that I will not try and get a stamp vending machine in Drostdy Hall.

I believe that one of the most important tasks facing next year's SRC is that of generating student interest in its activities. What needs to be done is to raise the level of awareness on campus about pertinent issues. This could be achieved through 'happenings', posters, the SR Scene and pamphlets. (I would also look into the possibility of building a graffiti wall in the vicinity of mini-Kaif similar to the one at Wits). It does not matter that different students arrive at different views and conclusions on controversial topics; What does, is that they make informed decisions. In the past there have been too many flavours of the month and not enough stimulation.

Past candidates have proposed taking politics out of the SRC as if it were a soiled nappy. This cannot be done: fifteen people sitting round a table cannot be anything but political, but perhaps the debates can be more dignified.

Naturally I have some ideas on the affairs of the Hall but these are details best discussed at the Hall grazzle.

With regard to Nusas, I would follow wishes of the majority of the Hall.

Registered for B Soc Sc at Rhodes in 1981. Hobson House Food Rep in 1984 Business manager on 1983/4 Rag Committee. Member of Cathsoc.

MANIFESTO:

I believe that the main task of a Hall representative is to promote the aims and interests of his/her constituency.

I propose to do this through regular reportbacks, newsletters and attending House Meetings. By attending House Meetings I hope to keep in touch with the students in the houses.

I feel that the suggestions/complaints box should be more frequently used. This would enable the SRC Rep to guauge the opinions, feelings and suggestions of students. The complaintbox is also a channel through which students could present their criticisms of the SRC.

It is important to maintain and foster good relations between the womens' residences and Livingstone. This could be done by working in closer co-operation with the House Committees of the four residences.

If elected I would want to fulfill the porfolio of Residence Liaison Councillor. This portfolio could be effectively used to further student interests and demands. Issues I would like to taek up are the food situation and the recent decision to grant autonmy to Hall Wardens.

MANIFESTO:

I see the role of an SRC Representative as a dual one; that of representing students interests in Oriel Hall, and that of campus, as a whole. Although I haven't taken positions of leadership, I feel that I have the capacity and ability to take up students grievances, and see that they are dealt with accordingly.

Practically, the way I intend doing this, is through Newsletters, a suggestion box and reportback meetings.

Crucial to my being a good Hall Representative, is through your participation, and I would willingly take up any suggestions, queries or complaints from any student in Oriel Hall.

The other role I see the Hall representative playing, is that of providing a service to campus generally, and it is here that I am interested in the Benefits portfolio, whereby service to the Hall will be extended to campus as a whole. I see the Hall Representative as a channel to the many avenues the SRC has, to ensure that students have the opportunities to express any issues of concern.

MANIFESTO:

If elected for the SRC I will stand for the portfolio of student benefits. The Food situation is of great importance in the Kimberley Hall Constituency, and the efforts made in 1984 must be followed up and some improvements seen in 1985. With the opening of Kimberley Hall II next year, this is an ideal time to revise the system on The Hill.

As fully paid up students we should not be forced to put up with the food we are served. I will strive for closer co-operation between students and caterers. I will focus on the lack of variation in the vegetarians diet.

I will try to make myself available to students and take our problems to the SRC. I will to the best of my ability use my position on the SRC to represent the students of Kimberley Hall.

I have mentioned certain major issues stemming from previous years and refrained from mentioning other issues, because new issues arise yearly.

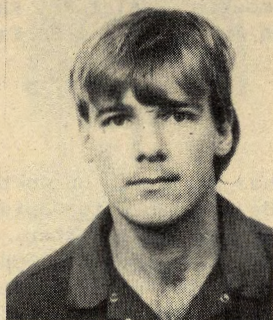

I won't promise that life in Kimberley Hall will be changed dramatically when I am elected, but I will make Kimberley Hall's presence felt on the SRC as one of the strongest Halls on campus.

When elected to the SRC with the aid of Kimberley Hall, I will strive to improve student benefits, particularly where such benefits have been made available, but are underutilized due to mismanagement.

Hygiene factors affecting student's performance will be by top priority and I promise to take a concrete stand on improving the food situation in Kimberley Hall. I will call a student boycott in this regard in order to achieve food standards on a par with the rest of campus. In order to ensure an unbiased political stand, I will present any issues to my Hall for consideration before making a decision. I will pursue the draft function of Residence Liaison Officer and will seek improvements in Res Rules, especially in matters concerning intervisiting with the view of abolishing this system in the Men's Residences.

Participation in Faculty Councils this year has increased my concern for effective students representation.

As an Oppie Rep one of my primary aims would be to see the reinstatement of the third Oppie seat on the SRC. Given the number of Oppies at Rhodes, I feel that this is both justifiable and necessary. It has been said that Oppies are isolated from campus activities. However, I feel that they do maintain an active interest in all aspects of university life. Good SRC representation can only enhance their participation by keeping them up-to-date with campus happenings. It would also strengthen the links that do exist between Oppidans and the rest of campus.

I am keen to take forward the progress already made this year by the Oppidan Board in terms Oppie Benefits.

MANIFESTO:

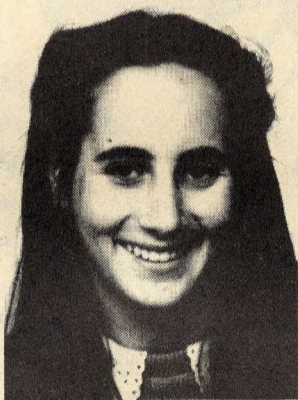

The Oppidan liaison portfolio has proven to be worthwhile and needs to be continued and strengthened. Benefits made available to Oppies have included exercise classes, games, videos and a regular Oppie letter. These will all be continued and further benefits introduced. I believe the Oppie letter plays an important role in facilitating communication between Oppies and campus. Helping students find accommodation is a crucial aspect of this portfolio. I plan to make available a comprehensive digs guide which would include addresses of available student digs, landlords names, information concerning leasing, costs of living in digs and people to contact about digs problems. I would also motivate strongly for Admin's assistance in the Accommodation crisis. The University should intervene and appeal to townsfolk to make more accommodation available. A complimentary interest of mine is education. As an Oppie Rep, I would continue to work on improving the functioning of Faculty councils and other areas. For this reason, I would motivate that 2 education portfolios exist to cover the vast amount of work that needs attention in the education field.

I consider one of the most important tasks of a SRC Representative is to be in constant contact with their Hall. These students should feel that their problems will be acted upon and not ignored or shelved away. This can be achieved through personal contact, organised informal meetings between Senior Students and suggestion boxes.

I would like to see Hall Unity and co-operation promoted, through, for example, the establishment of a common games room and a monthly Hall news pamphlet. I would also like to see some Res. reform with the stress on the improved status of first years and on duties.

PENSKETCH:

Educated in Zimbabwe - A levels 1980 in Bulawayo
1981 : Worked for S A Youth For Christ
1982 : Registered at Rhodes - normal apathetic student
1984 : SRC Rep for Founder's Hall, Benefits Councillor

MANIFESTO:

1. I generally dislike manifesto's of any kind since no-one believes them or seeks to fulfill them. In addition they can induce a guilty conscience.
2. However, since any representative must be accountable to his electorate, I would seek to achieve the following:
 - a. To initiate a Hall newsletter in Founder's
 - b. To fully investigate the possibility of installing washing machines
 - c. To maximise contact between students and the SRC by means of regular reportbacks, whether written or verbal.

I feel that having been on the 1984 SRC has given me useful experience and knowledge which I can utilise to the benefit of Founder's Hall and in the wider context of campus. Should I be elected I would seek to obtain the Residence Liaison portfolio.
