Dear Dr. Henderson

I would hereby like to invite you to contribute to the  
1986 Rag effort by means of the customary Vice-Chancellor's  
message in the Rag magazine.

Your perceptions of Rag itself as well as the broader  
issues involved are appreciated and form an important part  
of the magazine.

Thanking you in anticipation

Yours sincerely

## VICE-CHANCELLOR'S MESSAGE

UNIVERSITY OF GRAHAMSTOWN  
6140 South Africa

South Africa's whipping boy role in the world community tends to concentrate our attention on our lives and problems to an almost exclusive extent. There is, however, a big wide world out there, full of fascinating and colourful countries and people. Rhodes Rag theme this year "Around the World in '85" should help us to raise our eyes beyond our own horizons, while at the same time offering each one of us the opportunity, by digging deeply into our pockets, of helping those people here at home towards a future in which they can help themselves.
